The commissioner of police who is presently abroad has been contacted to inform him of the lethal situation.

We strongly believe that it is not an “ordinary burglary” sponsored by powerful mafia or by those in power

The value of the documents lost are inestimable.

We are appealing to the commissioner of police to personally see to it that the inquiry is not carried out with levity.

We are also appealing to the general public not to buy any of the equipments listed above and if ever you have genuine information which may lead to the arrest of the thieves to contact Mr Dev Sunnasy.

We are also informing the police that if nothing is done in the coming weeks we will have no alternative than to put on social network the footage in our possessions and the photos of our thieves.

We pray the police to allay our fears as we don't believe in coincidence specially after what happened to the van of Raouf Khodabaccus which could have led to the deaths of two of our leading members.
